

# Take Your Career to the **NXT**LEVEL

## NXTSTEP: Career ✓

This program helps participants examine their current or desired career options. Whether you are looking for your first job or looking to better understand if you're on the right path to maximize your success and happiness at work, this program is recommended for you.

### **Participants will:**

- Understand your strengths, motivation, and opportunities for future development.
- Discuss which career opportunities offer a strong fit for your personality and skills.
- Explore the skills and traits associated with leadership or non-leader career paths.
- Identify what type of role and workplace are most satisfying for you.

### **Here is how it works:**

1. Participants will complete two profile/assessment tools online. These are not tests. There are no right or wrong answers. This can be done on any computer with internet access. Each assessment will take less than 15 minutes to complete.
2. A one-on-one session will be scheduled for the participant to review their assessment results with a career coach. This session will explore your interests, your strengths, and your fit in your current or desired role. In-person sessions are highly recommended, however, remote participation via telephone, facetime or skype are also options.
3. Participants will then have telephone and email access to the career coach for six-months following the career session.
